

## WORLD-WAR VETERANS

A Column Devoted to the Interests of the Men Who  
Defended the Nation on Land and at Sea.

The war risk insurance bureau makes an announcement of money value to a host of ex-service men who before July 25, 1919, paid all their past-due premiums in order to reinstate their insurance. On that date the Treasury Department promulgated a decision (No. 47) which allowed eighteen months from the time of a man's discharge from the service for the reinstatement of his policy on the payment of two months' premiums. Now the bureau announces that those who prior to that date reinstated their insurance by the payment of all unpaid premiums may, upon their written application, have all such premiums in excess of those applied to the payment of future premiums. The insured will take notice that he can gain this application of premiums only by asking for it. He should send his request to the same office that received his payment.

In renewing insurance by the payment of two premiums the insured should consult the schedule and pay for the first month's premium the rate then in force for the amount of his renewed insurance, and not on the full amount of the policy if he is reducing the policy. He should find out the rate for the amount of his age at the time he pays the current month and make that the amount for his second month's premium.

The Treasury Department has also made a special blanket ruling for the purpose of encouraging veterans who have let their insurance lapse. Under the rule in vogue a lapsed policy could not be reinstated after the insured had let it remain unpaid for eighteen months. This new ruling gives a chance to those who were in that predicament.

It permits all ex-service men to reinstate their insurance at any time before the end of the present year. The only proviso attached to this privilege is that each applicant shall be in as good health when he applies as he was at the date of his discharge or at the expiration of the grace period, whichever was the later date, and he so states in his application.

Col. William C. Rucker, medical adviser of the director of the war risk bureau, once more emphasizes the fact that many veterans under the existing law will lose their right to secure compensation for disability incurred in the present war. It is that the veteran loses his right to apply for compensation after a year from his discharge, with two exceptions. They are where he has received medical or surgical treatment from the proper federal authority within that time, and where he shall have procured a certificate of probable disability within twelve months from his discharge from the Army from the medical service of the bureau of war risk insurance.

Thus far few states, communities or organizations have published plans for the observance of Armistice Day—that day on which, a year ago, at the eleventh hour of the eleventh day of the eleventh month, hostilities of the world came to an end abruptly. Many think that the subject deserves the attention of all organizations, not in America alone, but in the whole civilized world. They say that the day was the accomplishment of all that the lovers of democracy were fighting for, and that it should have an international recognition.

Senator Sheppard of Texas has introduced a bill of considerable importance to many who had served in the old guard officers. The National Guard before they entered the National Army. The bill provides that from August 5, 1917, when the guard was federalized, officers and enlisted men of the United States Army, who had been in the National Guard of any state, but who entered the guard otherwise than through the draft of August 5, 1917, are entitled to count such service in computing longevity pay. The construction of the longevity pay law has awarded this privilege to all members of the guard drafted on the general call of August 5, but it does not include many who entered by way of training camps or otherwise at other periods. The effect of Senator Sheppard's bill is to put these men on an equal basis with the fellow members of the guard. The bill will not include those who served in the state guards.

Thousands of officers and men lost their baggage or personal property in the present war. Congress, July 9, 1918, passed legislation for replacement or payment of its value. Now comes the bureau of the officer who presents a claim for the value of certain personal property on account of its loss, but which was subsequently recovered and returned to him. The judge advocate of the Army has filed an opinion that the statutes cannot be enlarged to authorize compensation in a case of temporary deprivation of the use or possession of the property in question. It adds that, if the owner chose to replace it with other, by reason whereof the property is now of no, or little, value to the owner, that fact does not affect the situation. There is no authority in law for payment of such a claim.

While the Army is willing to give a man every facility to get the facts in his own record, it is very much on guard against letting him take advantage of the opportunity. In a recent case counsel for the defendant in a divorce action requested the questionnaire of his client for use in the trial. Accompanying the request was the affidavit of the registrant as to its contents. But the judge advocate holds that where official records or copies are required in civil suits between individuals the War Department shall be furnished with a copy of the rule, certificate or order of the court in which the litigation is pending, certifying that the copy is material thereto and necessary in the administration of justice before the copy shall be made.

The surgeon general of the Army, Maj. Gen. Ireland, has reported on progress made by the men in the hospital patients in the training which is to fit them to re-enter active life. It also shows the extent to which the hospitals are discharging the patients. Only ninety of the nearly 2,500 patients receiving the surgeon's certificate of disability were designated as unfit for their former occupations. The enrollments in war handicrafts—such as knitting, weaving, textile work, and occupations in leather, cardboard and binding materials—have been reduced from 14,000 to 10,700. At that time 3,400 patients were enrolled in war academic work, taking courses in reading, drafting, shorthand and speech correction.

In August nearly 18,000, or just a little more than one-half of the patients in the Army hospitals, were enrolled in the educational service, making a total of something more than 30,000 patients still in the hospitals.

Last Friday and Saturday the Army Ordnance Association at the Aberdeen Proving Ground, Md., held its first convention. Its members had an opportunity to see a demonstration of some of the ordnance which it had assisted in producing for the war. The pieces were put in action and the members saw an inspection of the top muzzles, which included guns of various sizes and styles, railway artillery, trench mortars and the total number is estimated at 2,000 by Mr. Kelley. These were but a small portion of the war-time ordnance. There were 24,000 men in the service, 17,000 of whom were "paper men," and 36,000 neutral aliens without papers, who were taken in the first and second drafts and made no attempt to evade service.

The record shows five men in the

11, is expected to be a widely celebrated occasion. The state of Washington led with 398 in this class; New York had 233 and Minnesota 247.

It is probable that the question of deporting those who have up their opportunities for citizenship in order to evade military service will be acted on at the American Legion convention. \*\*\*\*\* Betsey Ross Post of the American Legion, organized by the women who served as yeomen (F) during the war, has petitioned the national organization for permission to change its name to "U. S. S. Jacob Jones Post No. 1." This action was taken at a special meeting last week, where the question of the change was fully debated. It was finally agreed that the post should have a name which would mark it as a naval group, and it was decided to rechristen it in honor of the only United States destroyer to be lost during the war in actual combat with the enemy. The post wished especially to pay honor to the sixty officers and men who lost their lives when the Jacob Jones went down. This post, which has a membership of more than 1,300, will open a clubhouse at 1315 K street next Sunday afternoon. The occasion will be marked by a tea. The building is four stories high and will be fitted up with conveniences for the fair members of the legion. The monthly social meeting of this post will be marked by a dance at Kauffman's the evening of October 30.

Senate Adopts Postal Bill Report. Enactment of the joint resolution providing increased pay for postal employees was completed yesterday with the adoption of the conference report by the Senate. The measure now goes to the President.

Post Petitions for Change in Name. The national organization for permission to change its name to "U. S. S. Jacob Jones Post No. 1." This action was taken at a special meeting last week, where the question of the change was fully debated.

Change of Name to Avoid Confusion. The name of Theodore Roosevelt Post, organized by members of the Young Men's Hebrew Association, has been changed to President Roosevelt Post to avoid confusion. As the by-laws of the national organization forbid the naming of a post in honor of a living man, it was thought best to make it plain that this post was named for former President Roosevelt.

Convention Rates at Hotels Arranged. When delegates from the District of Columbia and elsewhere reach Minneapolis for the American Legion convention, which opens there November 10, they will find small cause to complain of "protesting" by the hotels, for the national organization made certain of reasonable rates for accommodations by contracting last June for 2,700 rooms for the convention.

Urges Deportation of Neutral Aliens. A bill for the deportation of some 2,000 neutral aliens, who withdrew their applications for citizenship to evade military service, is made by Charles D. Kelley in the current issue of The American Legion Weekly, a publication now issued in Washington.

Post Would Admit War Correspondents. Privileges are sought by the newest post in the District of Columbia, the National Press Club Post, No. 1, which held its first meeting last Tuesday night. Such men as Irvin Cobb, Floyd Gibbons, Julius Wood, Will Irwin, George McFall and others of international repute, who were frequently under fire in the big actions along various fronts, will be eligible for membership in the legion if this movement is successful.

Admission of all accredited war correspondents into the American Legion with full membership privileges is sought by the newest post in the District of Columbia, the National Press Club Post, No. 1, which held its first meeting last Tuesday night.
